this 15th day of March, 2007.

SHARON H. P. OGATA

Notary Public, Third Circuit, State of Hawaii

My commission expires October 1, 2008

**NOTICE OF PUBLIC HEARING**  
**IN THE MATTER OF THE APPLICATION OF HAWAIIAN ELECTRIC COMPANY, INC.**  
**FOR APPROVAL OF RATE INCREASES AND REVISED RATE**  
**SCHEDULES AND RULES**

DOCKET NO. 2006-0380

NOTICE IS HEREBY GIVEN that pursuant to chapter 91 and 260, Hawaii Revised Statutes ("HRS"), the STATE OF HAWAII, PUBLIC UTILITIES COMMISSION ("Commission") will hold a public hearing relating to the application of HAWAIIAN ELECTRIC COMPANY, INC. ("HECO"), filed on December 22, 2006, for approval of proposed rate increases and revised rate schedules and rules. The public hearing will be held as follows:

Date: Tuesday, March 6, 2007  
 Time: 6:00 p.m.  
 Location: Prince Charles Kawaanekoa Middle School Cafeteria  
 49 Fumiharu Street  
 Honolulu, HI 96813

HECO is a licensed public utility engaged in the production, purchase, transportation, distribution, and sale of electricity on the Island of Oahu. HECO seeks Commission's approval of a general rate increase of approximately \$20,456,000, or 7.1%, over revenues at current effective rates. Revenues at current effective rates include revenues from the interim rate increase approved by the Commission in Interim Decision and Order No. 22350, filed in HECO's 2005 test year rate case, Docket No. 04-0113. If revenues from the interim rate increase are excluded, the requested total over revenue at present rates is estimated to be \$151,505,000. The requested increase is based on estimated total revenue requirements of \$150,782,000 for the normalized 2007 test year (based on August 2006 fuel oil and purchased energy prices), and an 8.92% rate of return on HECO's average rate base. HECO is also proposing several new rate designs and rate schedule revisions, all including rate block structure for residential customers, optional time-of-use rates, and standby service rates.

HECO states that it filed this request for a general rate increase due primarily to the addition of plant and equipment, HECO's system growth, and the resulting costs of depreciation, interest, and other operating expenses. Without interim rate relief in this proceeding, HECO estimates that its rate of return on its average rate base at current effective rates will be 4.03% for the normalized 2007 test year, as compared to the 9.16% rate of return that the Commission authorized in Docket No. 7789 for the 1995 test year. In addition, HECO estimates that, if revenues from the interim increase in Docket No. 04-0113 are not considered, HECO's rate of return on its average rate base will be 1.95% for the normalized test year.

HECO requests that its general rate increase and the revisions to its rate schedules and rules take effect in two steps:

1. **Interim Increase:** An interim increase in rates, to which the Commission finds HECO is "probably entitled" based on the evidentiary record, pursuant to HRS § 269-16(d); and
2. **Final Increase:** A general rate increase upon the Commission's issuance of its final Decision and Order that provides for the amount of the total requested revenue increase that was not included in the interim rate increase.

The proposed rate increases over current effective rates (which include the interim rate increase surcharges currently in effect) by rate classes for the 2007 normal and test year, in dollar amounts and by percentage, are as follows:

Rate Class	Revenue Increase (in \$000s)	Percentage Increase
R - Residential	\$10,693.3	7.06%
G - General, Non-Demand	\$5,702.0	7.06%
J - General, Demand	\$26,301.6	7.06%
H - Commercial Cooking, Heating, Air Conditioning and Refrigeration	\$518.6	7.07%
PS - Large Power, Secondary Voltage	\$5,843.7	7.08%
PP - Large Power, Primary Voltage	\$23,386.3	7.08%
PT - Large Power, Transmission Voltage	\$1,840.2	7.08%
F - Public Street Lighting, Highway Lighting, and Park and Playground Lighting	\$503.4	7.08%
Total Sales Revenue	\$56,707.0	7.06%
Other Operating Revenues	\$765.0	19.48%
Total Revenues	\$60,556.0	7.10%

The proposed rate increases over present rates (which exclude the interim rate increase surcharges) by rate classes for the normalized 2007 test year, in dollar amounts and by percentage, are as follows:

Rate Class	Revenue Increase (in \$000s)	Percentage Increase
R - Residential	\$47,841.5	11.51%
G - General, Non-Demand	\$3,733.3	11.24%
J - General, Demand	\$10,602.0	11.07%
H - Commercial Cooking, Heating, Air Conditioning and Refrigeration	\$790.0	11.20%
PS - Large Power, Secondary Voltage	\$15,831.8	11.67%
PP - Large Power, Primary Voltage	\$35,304.1	11.06%
PT - Large Power, Transmission Voltage	\$1,840.2	7.06%
F - Public Street Lighting, Highway Lighting, and Park and Playground Lighting	\$577.4	12.03%
Total Sales Revenue	\$150,637.0	11.19%
Other Operating Revenues	\$816.0	20.59%
Total Revenues	\$151,505.0	11.22%

The proposed increases reflect the average proposed increase for each schedule of services. The increase experienced by a particular customer will depend on the customer's schedule of service, and other factors, such as the customer's energy use, and the customer's billing demand (where applicable).

The Commission will determine whether the proposed revenue increase, charges in rate schedules and rules, and other matters requested or proposed by HECO, are just and reasonable. The Commission will hold an evidentiary hearing before the Commission in its public hearing under HRS 260 and the applicable rules in the Commission's Rules of Practice, within the evidentiary period. The total revenue increase for the 2007 test year will not exceed the \$151,505,000 over revenues at present rates requested in the Application; but the rates and charges to be finally approved by the Commission after its investigation may be higher or lower than the proposed rates and charges for the various rate schedules of service.

All interested persons are urged to attend the public hearings to state their views orally, in writing, or both. Written statements may be submitted prior to or at the public hearing. Statements may be mailed to the Public Utilities Commission, 405 South King Street, Room 103, Honolulu, Hawaii, 96813. Statements may also be sent by electronic mail to the Commission's e-mail address at HPUC@hawaii.gov.

Motion to Intervene or Participate in this proceeding shall comply with Subchapter 4, Rules of Practice and Procedure before the Public Utilities Commission, Hawaii Administrative Rules, Title 6, Chapter 61. A motion to intervene or participate in this proceeding shall be filed with the Commission by March 16, 2007.

Copies of the application and supporting documents are available for public inspection during regular business hours at the following locations:
